2. Pilot Off-leash Implementation Plan

Receive recommendation from the Dog Park Subcommittee and forward a recommendation to City Council regarding a proposed implementation plan for the pilot off-leash program in Heritage Oaks Park

Public Comment: Chris Higgins professed appreciation that Los Altos is finally considering an off-leash dog park. He spoke about creating new friendships and supportive relationships through local dog parks.

John Squire expressed concern that Heritage Oaks Park is too small to be suitable for off-leash hours.

Yoav Agmon opposed making Heritage Oaks Park an off-leash dog park, in general. He believes that the method of choosing Heritage Oaks Park as an option was inappropriate and mentioned that he has submitted emails to the Commission previously voicing his objections.

Arundhati Shukla spoke in support of the Subcommittee's implementation plan for Heritage Oaks Park. She praised the Subcommittee's work and the compromises that were made.

Jane Clayton acknowledged the large amount of work completed by the Dog Park Subcommittee. She voiced support for the evaluation team and incident-reporting procedure but maintained that she opposes the selection of Heritage Oaks Park, in general, due to the size of the park, parking constraints, and existing soccer programming.

Martin Saso strongly opposed the use of Heritage Oaks Park for an off-leash pilot program, even with the Dog Park Subcommittee's recommendations. He stated that he has been documenting and reporting frequent off-leash violations since the Parks & Recreation Commission began actively considering dog parks for Los Altos early in 2020.

Susan Kearney thanked the commission and the Dog Park Subcommittee, in particular, for their hard work on this issue. She spoke in support of off-leash hours at Heritage Oaks Park and of a community evaluation team but voiced some concerns about pieces of the implementation plan (e.g., waiting until after COVID-19 and automatic shutdown options).

Jon Norris voiced that he believes that the implementation plan is reasonable and benefits the local residents. He also said that he believes that community and accommodation are important parts of reaching a compromise.

Jessica Norris spoke to support the off-leash pilot program at Heritage Oaks Parks. She stated that she believes that early socialization of dogs is vitally important and will help mitigate safety (aggression) issues. She stated that the proposed off-leash hours are ideal (regarding the number of people in the park during proposed hours).

Tracy Pirnack spoke in opposition of Heritage Oaks Park as an off-leash pilot location, including that she wanted the following components added to the report prior to City Council submission: unanimous opposition from immediate Heritage Oaks neighbors, concern about human-dog conflicts, and non-compliance with Santa Clara County best practices for dog park (fenced vs non-fenced).

Frank Martin spoke in support of keeping signage and dog-owner responsibilities simple when submitting the Commission's recommendations to City Council. He felt like any location would have opposition and didn't feel like the current opposition should be considered prohibitive.

Menashe Shahar spoke in strong opposition to the decision to approve Heritage Oaks Park as a location for a pilot off-leash program. He indicated that he still believes that Heritage Oaks neighbors were not able to voice their opinions until the decisions had already been made by the Commission.

Marta and Mike (no last name given) voiced their support of the implementation plan for Heritage Oaks Park's pilot off-leash hours program. They echoed the following ideas -- keeping the recommendation simple, beginning in November, and praising the Commission and the Dog Park Subcommittee for their work on this set of tasks.

Zahra Ardehali praised the Commissioners who met with and listened to residents. She voiced that Heritage Oaks Park is too small and too busy to sacrifice any land for additional activities, including a dedicated dog park or off-leash hours for dogs.

Bob S (no last name given) reported that he lives close to Grant Park and makes great use of the park for exercising his family's dogs. He stated that Heritage Oaks is a great selection for an off-leash pilot program, and he plans to assist make the pilot program work well.

Carol (no last name given) voiced her opinion that she does not believe that an off-leash dog park is necessary in Los Altos. She stated that she believes that a fenced-in dog park could be appropriate in Los Altos.

Mia (no last name given) extolled the Commission's efforts, but further stated that she does not support choosing what was clearly a "second choice" location for recommendation to City Council.

Chaya Shahar spoke about the signatures that the Heritage Oaks neighbors collected from residents who do not agree that Heritage Oaks Park is a good choice for an off-leash pilot program. She does not believe that the buffer zone between the park and the neighbors is sufficient.

Nancy Perkins stated that elderly neighbors are just as at risk as children while spending time in the park, and she further stated that sectioning off areas of the park (using fences, trees, and

other barriers) would be ideal. She suggested that repurposing an unused tennis court area could be a possible solution.

Yael Kohari stated that she supports Hillview Baseball Field for the off-leash pilot program. She also echoed earlier comments about the area near the Bus Barn and Main Street Library, under the oak trees.

He indicated that he believes the off-leash violations (outside “set” hours) will continue even after off-leash pilot plan implementation.
